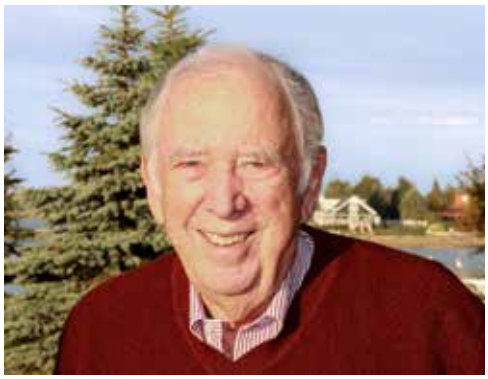
Continuing the legacy of Erie Materials

This past year at Erie Materials has been one of change, reflection, and new opportunity. As many of you may know, our founder, Bob Neumann, passed away in September at the age of 82.



Bob Neumann, founder
1941–2023

Bob brought success to Erie Materials by implementing a simple yet effective formula: hire good people, provide exceptional services, and sell quality products at a fair price. He often reflected on the many people who helped make Erie Materials what it is today, recognizing that "our success is thanks to our people."

Bob was also a transformational leader. He started Erie Materials in 1973 with just a small warehouse, an old truck, one forklift, and three employees. Today, we're proud to have more than 375 employees, nine locations across New York and Pennsylvania, an entire fleet of vehicles, and an advanced distribution system.

Chris Neumann, President

And there's still more to come.

- New Branch in Poughkeepsie – This year we will open a new branch in Poughkeepsie, NY. This is our first expansion since branching out to Albany in 2006. Opening this new branch will allow us to better serve customers in New York's Hudson Valley.
- Internal Manufacturing – We recently took our first step into manufacturing at the end of 2023 when we acquired NEG Building Products Inc., a manufacturing company in Nicholson, PA, which has been our supplier for drip edge, gutter accessories, and related metal products for decades.
  We're excited to be starting this venture and working towards ensuring consistent, reliable sources for the products we sell.

While new things are on the way, we are still committed to the values that Erie Materials was founded on back in 1973. Bob's son Chris, the President of Erie Materials, is proud to carry his father's vision and legacy forward and is dedicated to remaining independent and family-owned.

Everyone at Erie Materials will continue to work hard to earn your business and provide the type of service you need to be successful.

Thank you to all our customers, employees, and suppliers for your dedication to Erie Materials and to Bob. We look forward to working with all of you in the years to come.

TimberTech® by AZEK™

The Board: An Azek Loyalty Program

Where Pros Belong and Benefit

Join Azek's loyalty program, The Board, for our contractor partners. By becoming a member, you not only join an exclusive group of top-tier pros, you also get valuable benefits that can grow your business by reaching more customer and closing more deals. Once you join, you begin earning points with every TimberTech®, Azek® Exteriors, and StruXure® product you install. Points are captured each time you submit an invoice and can be redeemed for marketing expenses and training – or cash. And you can begin earning as soon as you join. Join today at timbertech.com/theboard/

JOIN THE BOARD!

Trex Decking

TrexPro Program

Becoming a TrexPro connects you to a respected leading brand, makes you a member of an elite group of contractors, and qualifies you to receive special benefits to grow your business. A TrexPro is a professional committed to building quality decks using Trex products. A TrexPro adheres to the company's installation requirements and program guidelines, and adds value to his or her territory while representing Trex as a customer's best option in every sales call. In return, Trex provides valuable benefits such as sales leads, referrals and a warranty program.

START YOUR CERTIFICATION

Trex spends millions of dollars each year to generate referrals for TrexPro builders, who are promoted in consumer literature, on Trex social sites and at Trex.com. A profile page on trex.com lets you showcase your company to prospects in your market.

****To obtain your Contractor ID# you must first register at www.certainteed.com/contractorcashback. You cannot submit to the program until you have received your ID# back from CertainTeed.**

PURCHASE INFORMATION (Attach spreadsheet with additional information if needed.)

INVOICE DATE	INVOICE NUMBER	PRODUCT NAME	QTY

For questions call 1-800-233-8990 or visit www.certainteed.com/contractorcashback.
Please allow 4 weeks processing for online submissions and 8 weeks for mailed-in submissions from time of receipt. Payment can take up to an additional 2 weeks.

For complete terms and conditions refer to https://www.certainteed.com/terms-and-conditions-contractor-cash-back

Card is issued by Pathward®, N.A., Member FDIC, pursuant to a license from Visa U.S.A. Inc. No recurring payments. Can be used everywhere Visa debit cards are accepted. Card valid for up to 36 months, funds do not expire and may be available after card expiration date, fees may apply. Terms and conditions apply. Go to www.myprepaidcenter.com for full details.

Rebate paid in USD for US program participants. Rebates are paid solely based on the volume of purchases and at an amount that is dependent on the product, which is specified in the additional terms and conditions referenced in the redemption form (above). By submitting a redemption form, participants acknowledge that the amount of the rebate paid is not determined by any other factor.

Offer # 04-12-545-US-EN

CertainTeed retains the right to reverse any overpayment that may be a result of duplicate submissions, incorrect rebate calculations, or for any other reason, directly from participants cards.

If you are new to the program you will receive a CertainTeed Visa® Prepaid Card within 4 weeks after your first rebate redemption is processed and approved.

CertainTeed reserves the right to change or cancel the Contractor Cash Back rebate program at any time, including modifying these Terms & Conditions.

This offer is only available to customers with mailing addresses in the United States.

WHY EAGLEVIEW®?

What Advantages Do Contractors See with EagleView Reports?

FASTER BIDS

EagleView Bid Perfect™ Reports enable roofers to compile fast, competitive bids. Delivered in just one hour, the report lists the number of squares and predominant pitch for a residential roof. When contractors upgrade to an EagleView PremiumReport™, they can deduct the cost of the Bid Perfect Report from the total price.

GREATER PROFITABILITY

With an EagleView PremiumReport, roofers receive the highly accurate roof measurements and diagrams they need to complete the job. Those precise details result in more efficient material orders and production plans, leading to less waste and increased profits.

SUPERIOR ACCURACY

Before using EagleView Reports, one group of contractors required material redeliveries 46% of the time and pickups 37% of the time. After switching to EagleView Reports, however, only two of their jobs needed redeliveries, and the number of pickups fell to zero.

PROFESSIONAL ESTIMATES

EagleView Reports are delivered with a customizable cover page, provided at no additional cost. Roofers can present customers with estimates in a professional document that showcases their company's name and logo on the cover.

INCREASED WINS

Contractors who use EagleView Reports can bid faster and smarter, resulting in increased wins. On average, contractors who order EagleView Reports have higher closing rates than those who don't.

EAGLEVIEW REPORTS

EagleView offers several reports designed specifically for residential and commercial roofers.

PremiumReport™

The EagleView PremiumReport delivers critical and comprehensive measurements, derived from high-resolution aerial Imagery, for residential and commercial structures. EagleView PremiumReports include measurements for roof length, area, and pitch, as well as hips, ridges, valleys, rakes, eaves, drip edges, flashing, step flashing, and parapet walls.

EagleView creates 3D diagrams of the roof facets, giving contractors a much-needed top-down view of the job. The PremiumReport also includes aerial imagery of the property and a summary page with a suggested waste factor developed for each unique property.

Bid Perfect™

EagleView Bid Perfect Reports enable roofers to provide highly accurate bids at the sales stage, and then easily upgrade to a PremiumReport when they're ready to order materials. With fast delivery and a price that can support every job, Bid Perfect Reports help contractors create quick estimates and close more jobs.

Walls, Windows & Doors

EagleView Walls Reports provide contractors with detailed exterior wall measurements and 3D wall area diagrams in a format that's easy to use and understand for quick and easy siding estimates. Walls, Windows & Doors reports can be ordered standalone or bundled with the Premium Report.

EagleView Assess™

EagleView Assess enables roofers to conduct drone-based roof inspections to help them quickly visualize roof damage and inspect more properties. The simple-to-fly drone captures detailed, high-resolution images of the entire structure, with options to generate automated damage reports and measurements for fast and accurate repair estimates.

ANDERSEN: FIBREX® COMPOSITE MATERIAL WINDOWS & PATIO DOORS

ANDERSEN® WINDOWS & DOORS

100 SERIES

A MODERN LOOK THAT'S EASY ON THE BUDGET

Whether you're replacing, remodeling or building new, Andersen® 100 Series products offer many advantages over vinyl at a good value. They're made with innovative Fibrex® composite material which is 2X stronger and more durable than vinyl. They're also energy-efficient, environmentally responsible and available in a variety of rich, dark colors with finishes that are made to last,* making them a better choice for your home.

FIBREX® MATERIAL 2X STRONGER THAN VINYL

FIBREX® MATERIAL 12X THICKER FINISH THAN PAINTED VINYL**

FIBREX® MATERIAL WITHSTANDS 150° TEMPERATURES

- Fibrex material retains its stability and rigidity in all climates, so weathertight seals stay weathertight
- Fibrex material blocks thermal transfer nearly 700X times better than aluminum, helping to reduce heating and cooling bills
- The finish on 100 Series products offers superior scratch resistance and won't fade, flake, blister or peel*
- 100 Series products can withstand temperatures up to 150°F, even in dark colors, meaning they won't warp due to sun exposure
- Virtually maintenance-free premium matte finish inside and out
- Insert windows available in custom sizes for easy replacement

ENVIRONMENTALLY RESPONSIBLE

Fibrex composite material is composed of 40% reclaimed wood fiber by weight.

*Visit andersenwindows.com/warranty for details.
**When 100 Series products were tested against five leading competitors' painted vinyl window products.

Mix and match up to four interior wood species, stains and/or colors for your window's frame, sash, grilles and extension jambs.

White | Birch Bark | Primed (for paint) | Canvas | Sandtone | Dark Bronze | Black

GLASS OPTIONS

A variety of energy-efficient glass options are available including triple-pane glass. Tempered glass, patterned glass and between-the-glass art glass are also available. Contact your Andersen supplier.

ACCESSORIES

- **Grilles**
  Choose from a variety of grille types and patterns included convenient Finelight™ grilles-between-the-glass for easy cleaning.
- **Exterior Trim**
  Add curb appeal with exterior trim made of Fibrex® composite material and available in 11 colors.
- **Blinds-Between-the-Glass**
  Blinds-between-the-glass offer privacy and convenience. Located between the panes of insulated glass, they are protected from dust and damage and never need cleaning.
- **Smart Home**
  Monitor, lock and unlock from anywhere with the Yale® Assure Lock®. This slim, sleek key-free lock is designed exclusively for Andersen® hinged patio doors† and integrates with a wide range of smart home platforms.

ANDERSEN® WINDOWS & DOORS

For more information, visit **andersenwindows.com/a-series**

**Actual wood species is either Sapele or Sipo, both non-endangered species grown in Africa, with color and characteristics similar to Central American mahoganies.
†Available on select hinged doors, see your Andersen supplier for details.
Printing limitations prevent exact replication of colors and finishes. See your Andersen dealer for actual color and finish samples.
Yale manufactures and supports the limited warranty for Yale Assure Lock for Andersen patio doors.

ANDERSEN WINDOWS & DOORS

MULTIGLIDE™ DOORS

NEW

WALK THROUGH WALLS

The MultiGlide™ door not only connects a home to the outdoors, it can be customized to fit any home's design. Beyond offering ultimate design freedom, it's engineered for smooth, easy operation with seamless transitions.

KEY FEATURES

- Fits openings up to 50' wide and 10' tall*
- Panel widths 28" to 60" wide and 47 ½" to 116 ½" tall (47" to 117" for flush sill options)**
- Rated for air, water and structural performance†
- Thermally controlled option is available for increased performance with clad wood panels only
- Available with all standard Andersen glass options including triple-pane glass
- Insect screen options include aluminum framed bottom gliding screen panels or a retractable screen system
  - Retractable insect screen system is hidden from view when not in use and glides across the complete door opening, stopping at any desired location.

SILL OPTIONS

On-Floor Drainage Sill Options

Raised Threshold

Exterior Ramp

Interior Ramp

Flush Sill††

Designed to only project 3/16" above the finished floor. Material between rails shown to represent flooring.

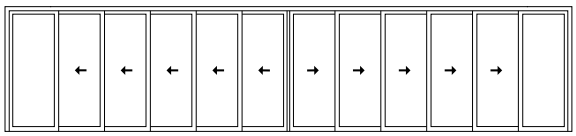
CONTEMPORARY & TRADITIONAL STYLES

Contemporary panels are available in an all aluminum design or aluminum-clad wood design and feature a 2 ¾" profile.

Traditional panels are available in an aluminum-clad wood design and feature 4 11/16" stiles and 4 11/16", 8" or 12" bottom rail heights.

DOOR CONFIGURATIONS

One-directional and two-directional stacking and pocketing configurations available.



Stacking & pocketing configurations up to 12 panels wide.

ROLLERS

Continuously adjustable synthetic rollers are cycle tested 25,000 for proven operation, feature stainless steel ball-bearings and are contoured perfectly to match the track to increase ease of operation.

AUTOMATED OPEN/CLOSE SYSTEM‡

Automated open/close system is available on both stacking and pocketing door configurations and is operated using an interior touchpad and weatherproof exterior secure keypad. It can also be connected with a home automation system.

Automated open/close

*Opening dimensions provided are rough opening. **Frame depth is dependent on number of panels. †Performance may vary based on unit size and options selected. Verify product performance prior to specifying door. ††MultiGlide doors utilizing the flush sill option will not be rated with air and water performance. ‡Sold separately. Automation is not available for doors with panels that are less than 36" in width and insect screens are not automated with this feature. Automation for MultiGlide door units over 25' in width is not provided by Andersen Windows. For more information regarding automation for MultiGlide doors over 25', please contact Summit Automation directly by visiting summitautomation.com.

WHY YOU SHOULD CHOOSE ERIE MATERIALS FOR YOUR ANDERSEN WINDOWS AND PATIO DOORS

ACCURACY

You will receive a printed quote showing all the details of your order. The data file from this quote is electronically submitted to the Andersen factory and used to build and ship your windows and accessories. This not only speeds up the process, but also prevents human errors caused by copying and communication.

RELIABILITY

- We manage the whole process: Quoting> Ordering> Receiving> Delivery> Warranty
- Experienced, knowledgeable staff
- Orders checked and double-checked so they're right and on time

WARRANTY

- We service what we sell
- Our service technicians have been trained at the Andersen factory
- No need to wait for a factory rep

As part of the Andersen Dealer Service Network, we can order service parts online. Andersen trusts us to take care of warranty issues.

CREATE MORE OF WHAT YOU CAN IMAGINE

Made for those who care about every detail and simply won't compromise on their vision, the Signature Ultimate product line offers beautiful design, craftsman-quality construction, and a vast selection of shapes, styles, sizes, and options. With extensive customization opportunities and versatility across architectural styles, Ultimate windows and doors can be used in a wide range of projects, including traditional, contemporary, transitional, historic, craftsman, or whatever style inspires you.

FOR MORE INFORMATION VISIT:
MARVIN.COM

DESIGN POSSIBILITIES

The beauty of Signature Ultimate is found in every thoughtful detail that, when combined, can completely transform how a room feels. Its extensive selection of design options means more flexibility to meet your projects needs.

EXTRAORDINARY INNOVATIONS

You'll feel Signature Ultimate quality in every touch. It's in simple and smart breakthroughs like Lift Lock hardware, which allows for easy access to open and lock a window. It's in our Lock Status Sensor, and features like Wash Mode.

UNMATCHED CRAFTSMANSHIP

Signature Ultimate windows and doors are available in a range of wood species and a variety of stains and paint options. We sand, condition, stain and oven-cure each individual piece of wood, providing a rich interior finish.

ULTIMATE WINDOWS

Designed for unprecedented performance and exceptional aesthetics, we offer window options for every style of home in any climate. From a classic double hung to European-style tilt turns and casements in industry-leading sizes.

ULTIMATE DOORS

Marvin doors are designed, engineered and crafted to maximize the potential of any opening, view and living space. From classic French doors to expansive scenic doors that blur boundaries between indoor and outdoor spaces, our doors offer uncompromising performance, virtually unlimited customization, and high-quality materials.

NEW

MODERN PRINCIPLES. MARVIN INNOVATION.

Introducing Modern.

Part of the Marvin Signature Collection, our Modern line considers every detail. From product to packaging to installation, we've created a line of windows and doors that's as beautiful to design and work with as it is to live with.

Discover it at **marvin.com/modern**.

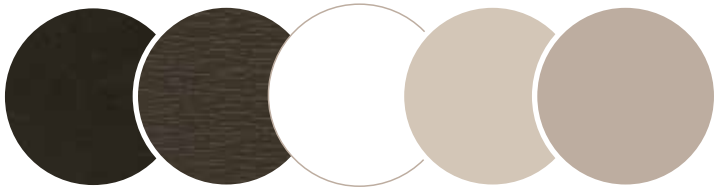
ERIEMATERIALS.COM

AVAILABLE OPTIONS

VIWINCO COLORS

Solid Extrusions



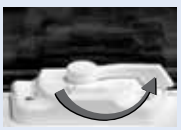
Midnight Black | Bronze | White | Tan | Clay

Exterior laminates are only available with White interior.
Actual colors may vary. Visit your local distributor for samples.

Tilt-n-Lock HARDWARE

Locked Position
The sash is securely locked, and hidden tilt latches are secure in the sash channel.

Unlocked Position
When you move the cam lock lever to unlock position at 150 degrees, the hidden tilt latches are securely engaged with the jamb, and you can lift the sash.

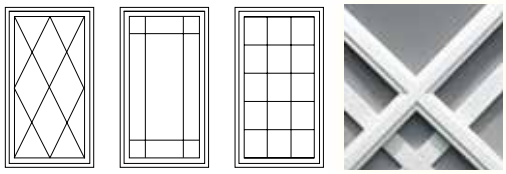


Tilt-Release Position
When you move the lever to the 180-degree position, the hidden tilt latches are retracted to clear the jamb channel; the sash tilts toward you easily.

GRIDS

Grids add definition to your window and character to your home.

Patterns: Colonial, Prairie, Double Prairie, Diamond (flat internal only), Queen Anne, Valance, or specialty designs.



Diamond | Prairie | Colonial | Deluxe top, flat internal

SIMULATED DIVIDED LITES

Bronze exterior SDLs

- Great for historic restorations
- Permanently adhere to the inside and outside of the glass
- Offered in all of our solid extrusions and exterior colors

EXTERIOR TRIM AND BRICK MOLDING

Available in any of our exterior colors, our 3-1/2" flat casing and 2-1/4" brick molding are fully welded, factory applied, and come with an extruded J-channel pocket.

3-1/2" Flat casing picture frame in tan

2-1/4" Brick Mold w/Bullnose Sill

EXTENSION JAMBS

- Factory applied
- Color-matched to your window
- Available sizes: 4-5/8" and 6-5/8"

STRUCTURAL MULLION

Structural mullions are used to mull two or more units together. They attach directly to the rough opening, delivering great strength and stability to the finished installation. An intergral mull is available for casement, picture, and awning windows.

WE'VE GOT THE OPTIONS YOU'RE LOOKING FOR—AND MAYBE EVEN SOME THAT WILL SURPRISE YOU.

GLASS

SOLAR GAIN

Solar Gain Low-E Glass has a higher Solar Heat Gain Coefficient (SHGC) than other Low-E glass designed for southern markets in order to retain the Solar Heat that provides FREE winter heat for the homeowner.

SOLAR SHIELD

Solar Shield has a lower Solar Heat Gain Coefficient (SHGC) in order to minimize Solar Heat Gain that results in extra work for your air conditioning unit.

Triple Glazed (1 3/8" Overall)
Features two 1/2" airspaces that will dramatically improve the performance of your windows by reducing heat loss and conserving energy. For an even better performance upgrade to Double Low-E & Argon.

FEATURE

Smart lock
Flush Mount Smart Lock allows you to unlock and tilt your sash with a single operation. This allows for cleaner sight lines and no tilt latches. (not shown).

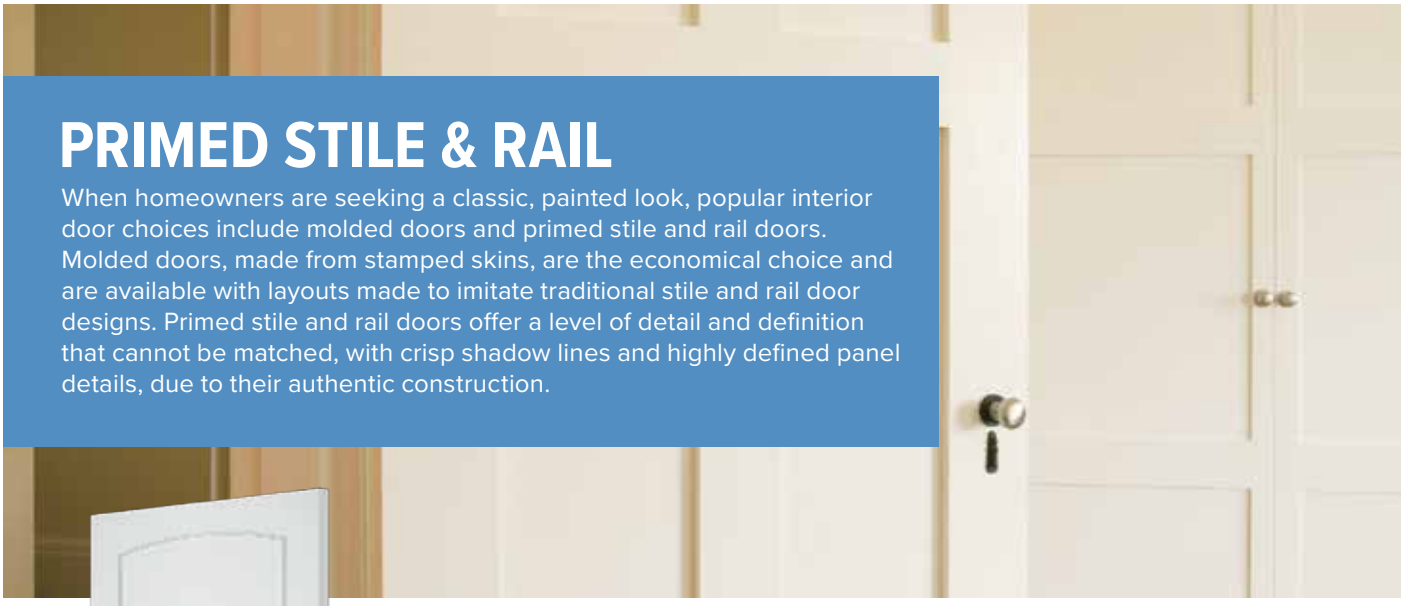
ERIEMATERIALS.COM



PRIMED STILE & RAIL

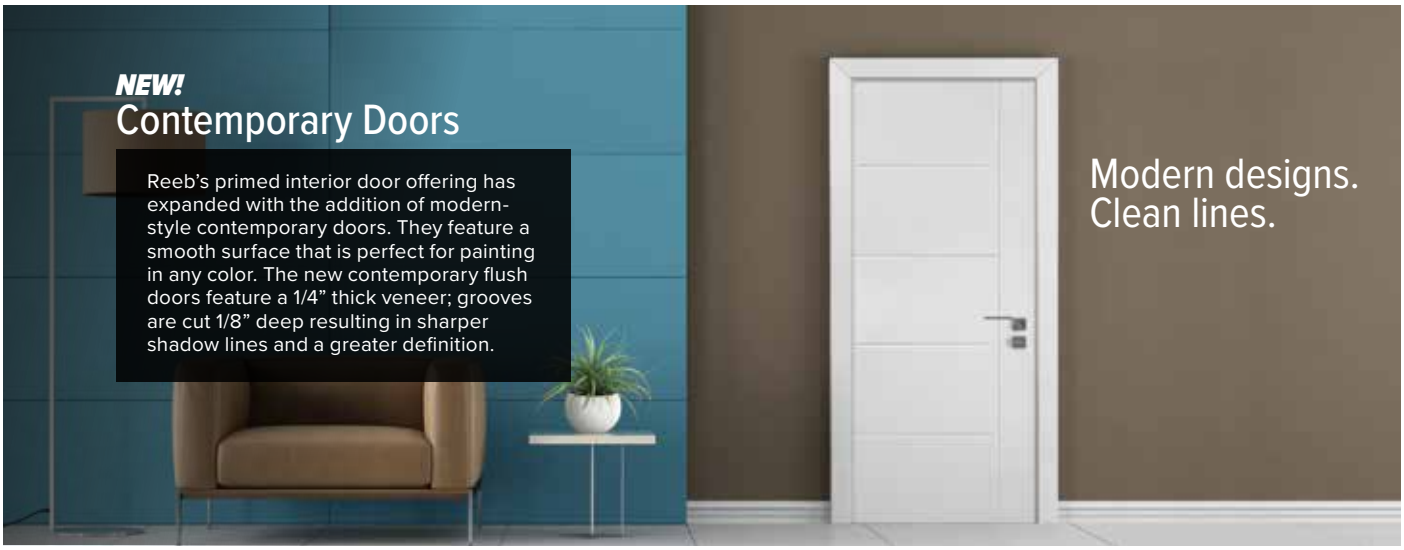
When homeowners are seeking a classic, painted look, popular interior door choices include molded doors and primed stile and rail doors. Molded doors, made from stamped skins, are the economical choice and are available with layouts made to imitate traditional stile and rail door designs. Primed stile and rail doors offer a level of detail and definition that cannot be matched, with crisp shadow lines and highly defined panel details, due to their authentic construction.

Durable and Architecturally Correct
Stile and rail doors are architecturally correct meaning the proportions of the door are always accurate. Stile and rail doors have a better aesthetic appeal coupled with the strength, durability, and feel of real wood.

Stile & Rail

Molded

Smooth Painting Surface
The edges of stile and rail doors are sharper and cleaner than those of a molded door. Stile and rail door edges are squared prior to assembly creating a more accurate, clean edge and smooth painting surface.



REEB®

For more information about Primed Stile & Rail doors, visit **reeb.com/catalogs**

ANDERSEN: STORM DOORS

ANDERSEN WINDOWS & DOORS

STORM & SCREEN DOORS

Andersen offers a full line of storm doors that add instant beauty and energy efficiency to your entranceway. Designed to deliver performance, convenience and easy installation, our storm doors offer the peace of mind you've come to expect from Andersen.

STYLE OPTIONS

FULLVIEW INTERCHANGEABLE

Let in the maximum amount of light and air while beautifully framing your entry door.

FULLVIEW RETRACTABLE

Let in an abundance of light while also benefiting from convenient anytime ventilation without having to remove a glass panel.

¾ LIGHT PANEL VENTILATING

Enhance your entryway with a classic look at an exceptional value with a solid lower embossed panel.

½ LIGHT PANEL VENTILATING

The ½ light panel offers traditional style with a solid lower embossed panel.

LUMINAIRE® RETRACTABLE SCREEN DOOR

Add ventilation without changing the look of the entryway.

THE ANDERSEN DIFFERENCE

We design our storm doors to make your life easier. Andersen has the styles, options and features to fit your needs.

QUALITY HARDWARE

Customize your storm door with a variety of hardware options. Select a finish and style that complements the look of your home.

SPLINELOC® INSECT SCREEN

Has 3X more holding strength than our standard insect screen and a minimal center mullion bar for maximum durability.*

QUICK CHANGE

Change from insect screen to full glass panel in less than a minute with a simple flip of the handle.

RETRACTABLE INSECT SCREEN

Enjoy convenient anytime ventilation with a retractable insect screen that rolls into the door frame and out of view when not in use.

SMOOTHCONTROL PLUS™ CLOSE SYSTEM

Our built-in dual close system is 50% stronger than standard dual closers.** It has an advanced two part operation for a smoother close motion and a more consistent latch.

REINFORCED CORNERS

Built-to-last† construction featuring reinforced metal corner brackets helps the door corners stay square over time for long-lasting smooth operation.

TIME-SAVING INSTALLATIONS

Andersen has taken the hassle out of installing a storm door. Install with confidence with our easy and convenient installation systems.

TruExterior® Siding & Trim

truexterior.com

TRUEXTERIOR: COMPOSITE TRIM

TruExterior® Trim

See TruExterior Siding and Beadboard Page 137

This decorative exterior trim offers phenomenal performance, remarkable workability and a lasting look without the cracking, splitting, cupping and rotting that commonly plague other exterior trim products.

- Suitable for ground contact
- Can be painted any color
- No need to prime ends or make field cuts
- Workability exceeds that of wood trim
- Maintains dimensional stability†
- No cracking or splitting from moisture†
- Resists rot and termite attacks†
- Installs with standard woodworking tools
- Reversible woodgrain/smooth
- Accepts a wide variety of fasteners
- Made in the USA
- 20-year limited warranty†

† See TruExterior® Trim Limited Warranty and Product Data Sheets for proprietary test results.

TimberTech ADVANCED PVC BY AZEK

timbertech.com

AZEK: PORCH FLOORING

TimberTech® Porch Flooring

Advanced PVC Porch Collection

Hardwood & Stained Wood Looks

UP YOUR CURB APPEAL

Bring all the real wood looks and performance benefits of TimberTech Advanced PVC Decking to your home façade projects with the TimberTech Porch Collection. Made of the same proprietary PVC material as our decking, you can enjoy the aesthetic and performance benefits. Plus, with an innovative tongue-and-groove installation, our Porch Collection allows for smaller gaps between boards, which delivers a traditional porch flooring look your clients will love.

- Most advanced polymer material in the cap and core for superior performance
- Highly resistant to moisture damage like mold & mildew & won't rot, crack, splinter, or warp
- Protected by an industry-leading Lifetime Limited Product Warranty
- Superior resistance to fading, staining, and weathering — backed by a 50-Year Fade & Stain Warranty
- Extremely low maintenance: No sanding, sealing, or staining — ever
- Barefoot-friendly: Stays up to 30° degrees cooler* & offers 40% better slip resistance than competitive composites
- Better for fire zones thanks to WUI-compliance
- Made from approximately 50% recycled material. Recyclable at end of life. No trees are felled for this product.

HB&G: COLUMNS

A new seamless fiberlgass sleeve for pressure treated wood posts.

SmartColumn is the latest column innovation from HB&G. Utlizing a pultruded sleeve and beveled cap and base, SmartColumn eliminates the need to site-build a column.

SmartColumn offers:

- Major Labor Savings - Installs 3.5 times faster than typical site-built column
- Fast Installation
- Limited Lifetime Warranty
- Superior Aesthetics
- Fewer Parts

SmartColumn is a pultruded fiberglass post sleeve that is attached to a load-bearing post before the post is installed on the porch. The cap & base are packaged in the middle of the sleeve and covered by the carboard packaging. Once the post is installed, the cap and base are ready to be secured.

KEY-LINK™ FENCING & RAILING

keylinkonline.com

Vertical Cable Railing

A fresh, modern style makes this cable rail system popular with homeowners, while the pre-installed cable makes it popular with contractors. All of the cable is high-quality 316-grade stainless steel, and it comes pre-installed in the section.

- Pre-strung cable installs quickly and easily. Just separate the top and bottom rails.
- Can be cut down in the field to any width needed.
- No fittings need to be quoted, purchased, or installed — just posts (with caps and trims) and railing sections.
- 36" railing in textured black, textured bronze, and textured white available within a week. Other colors and 42" tall railing is available special order.
- Manufactured, fabricated, and tested in the USA.

Horizontal Cable Railing

Key-Link's gorgeous contemporary system gives today's homeowners the look they want, while the ease of installation makes our cable rail the premier choice for contractors.

All posts come either pre-fitted with Marine Grade 316 Stainless Steel cable fittings or pre-drilled, saving valuable installation time.

Key-Link's exclusive fittings allow you to take cable easily around corners and down stairs for a clean, seamless look.

Chesapeake Series

The Chesapeake Series railing is the perfect choice for those who like to spend time on the deck with friends and family.

The deckboard top rail gives guests a convenient place to rest plates or drinks, making it easy to host events outdoors.

Chesapeake is available in Horizontal Cable, Vertical Cable, and Square baluster railing kits and includes predrilled top rail and fasteners to secure coordinating deckboard.

TimberTech Advanced PVC Decking

With highly advanced materials science, Advanced PVC decking delivers the most realistic wood looks and best performance to anything on the market.

- Most advanced polymer material in the cap and core for superior performance
- Highly resistant to moisture damage like mold and mildew and won't rot, crack, splinter, or warp
- Protected by an industry-leading Lifetime Limited Product Warranty
- Superior resistance to fading, staining, and weathering — backed by a 50-Year Fade & Stain Warranty
- Barefoot-friendly: Stays up to 30° degrees cooler* and offers 40% better slip resistance than competitive composites
- Made from approximately 60% recycled material

*Although TimberTech Advanced PVC Decking is cooler to the touch than many other deck board products, all decking products will get hot in the sun. Additionally, the darker the decking color, the hotter it will feel. For hotter climates, consider choosing a lighter color.

VINTAGE COLLECTION®

Exotic Collection

This collection captures the look of sought-after premium hardwoods with a refined wire-brushed finish and multitonal color blending featuring highlights and lowlights.

- Multi-Width Decking available in all colors.
- MAX (1.5" thick) boards available in Coastline. Ideal for docks, boardwalks, and other commercial applications.

Trex Transcend® Lineage™ Decking

The Next Generation of Design and Performance

Transcend Lineage is engineered to **keep decks cooler**, even on the hottest days.

- Designed with heat-mitigating technology to give you Trex's coolest decking yet*
- Tranquil tones that stand up to the elements
- Made from 95% recycled materials in the USA
- Backed by 50-Year Limited Residential and Fade & Stain warranties

*Although Trex Transcend Lineage is designed to be cooler than most other composite decking products of a similar color, on a hot sunny day, it will get hot. On hot days, care should be taken to avoid extended contact between exposed skin and the deck surface, especially with young children and those with special needs.

LIMITED RESIDENTIAL + FADE & STAIN WARRANTY 50 YEAR

TREX: DECK & RAIL LIGHTING

Trex Deck & Rail Lighting

Engineering What's Next in Outdoor Living®

trex.com

Easy to build into a new or existing deck, Trex Deck Lighting is even easier to set up with the Trex LightHub® connection system. To take the look up another notch, try the optional timer and dimmer for total lighting control. Whether safely illuminating stairways with LED step lights or highlighting the perimeter with deck post lighting, our lights offer a long-lasting glow that never fails to match the beauty of a Trex deck.

Solar Post Cap Light

NEW!

No electrical wiring needed! Fits 4" x 4" composite post sleeves. Up to 19 hours of run time.

White | Black | Vintage Lantern

Post Cap Light

Tucked discreetly under the cap, Post Cap Lights provide a warm downward glow in colors that perfectly match Trex railing.

White | Black | Vintage Lantern | Rope Swing

Stair Riser Light

Installed into step risers, riser lights are durable enough to handle years of passing foot traffic.

Bronze | Charcoal Black | Classic White

Deck Rail Light

These indirect lights reside directly on the rail post to illuminate the beautiful deck below.

Bronze | Charcoal Black | Classic White

Recessed Deck Light

These subtle dot lights install flush on the deck boards — or almost any other material — to efficiently light the way.

Wedge Light

SPECIAL ORDER

The sleek light can be installed on composite sleeves or 2.5-inch aluminum posts.

Trex® RainEscape®
DECK DRAINAGE SYSTEM

Trex®RainEscape®

A unique under-deck drainage system. A network of troughs and gutters keeps rain, spills and snow melt from dripping through deck boards, creating a dry patio area on the ground level below.

For new decks only.
Black in stock. Brown available by special order.

Item		Size	Code
Downspout			TRDOSP
Trough12		20" x 12'	TRTR12
Trough16		20" x 16'	TRTR16
Caulk		10.5 oz	TRBUCA
Tape		4" x 50'	TRTAPE
Postflash		4" x 4"	TRPFLASH

Trex® Protect™
JOIST & BEAM TAPE

Trex®Protect™ Joist Tape

- Protects the top of the joist, rim joist, and ledger board from developing rot and wood decay
- Butyl-based tape helps deck screws hold longer and stronger than acrylic or asphalt-based tape
- Acts as a barrier between wood and galvanized metal such as joist hangers
- Seals deck fasteners and prevents moisture penetration
- Eliminates splitting from freeze and thaw
- Provides a non-skid surface, making it safer during installation
- Available in two widths: 1-5/8" for joists and 3-1/8" for double beams
- Backed by a 20-year warranty

Item		Size	Code
Single joists		1-5/8" x 50'	TRPJT1
Double joists		3-1/8" x 50'	TRPJT3

ZIPUP: UNDERDECK SYSTEM

ZipUp Ceiling® and UnderDeck®

zipupceilings.com

ZipUP UnderDeck® is an underdeck drainage system and finished ceiling all in one. The panels firmly snap in place to form a watertight ceiling and channel water from above to a gutter system (not included) creating additional dry finished space with a beautiful ceiling!

Quick and easy to install and can be used under decks, on basement ceilings and more.

- Lifetime Warranty
- Easy Access to Electric or Plumbing
- Only 3 Interlocking Components
- Available in multiple finishes and is also paintable

Smooth white in stock at Erie Materials Distribution Center.
White Serrated, Beige Serrated, Beige Smooth & White Cape Cod panel available in one week
Gray Pebble finishes available by special order.

CULTURED STONE

culturedstone.com

Cultured Stone®

Driven by a pioneering spirit, Cultured Stone® introduced the world's first architectural stone veneer, making it possible to feature authentic hues and natural textures of stone and brick in any environment. Nearly 60 years later, Cultured Stone® continues to lead the industry by creating the finest stone products for empowering the artist within and bringing incomparable designs to reality.

Crafted from the highest-quality materials available, we undergo stringent quality control measures and third-party testing to ensure product durability, reliability and consistency. All which allows us to be one of the few stone veneer manufacturers certified within the NCMA and ICC-Evaluation Service Approval.

azekexteriors.com/captivate

5" Straight Shingle in Storm Cloud

Board and Batten in Acadian Coastline

Captivate Siding uses special solar reflective pigments that help keep your siding cool and add longevity.

Paint is applied with high-tech machines that ensure consistent coverage and a smooth coat. The finish on each piece is cured in a controlled environment instead of hoping for the right weather conditions on-site.

Dark colors? No problem—Captivate means the performance and low maintenance of AZEK PVC, **even in black**!

Captivate substrates carry the **AZEK Lifetime Limited Warranty** against rotting, splintering, swelling, and warping from excessive moisture absorption. On top of that, the paint manufacturer **warrants Captivate paint performance for 15 years** against cracking, peeling, or flaking.

Options include:

- Straight Shingles: 5", 7" reveals
- Staggered Shingles: 6" reveal
- Board and Batten: from 8" to 16" batten spacing, smooth or woodgrain
- Corners: 5/4" x 4", 6" x 20', smooth or woodgrain

Call for pricing.

CERTAINTEED: POLYMER SHAKE & SHINGLE SIDING

Cedar Impressions®

Individual 5" and Triple 5" Sawmill Shingles

certainteed SAINT-GOBAIN

certainteed.com

See Color Matrix on Page 105

CertainTeed's innovative CedarLife Color Blends capture the appearance of natural Eastern white cedar and Western red cedar at various life stages. CedarLife enables the selection of random color patterns for one-of-a-kind exterior designs.

Individual 5" Shingles:

- A more durable and low-maintenance alternative to real cedar shingles
- Authentic sawmill grain finish
- Three shades – light, medium, and dark – in each color family can be blended or used in one shade
- Five solid colors
- Seven different panel widths from 4" to 8" are packed together
- Can be installed with staples
- Markings molded into shingles make installation fast and easy
- Trim with Restoration Millwork

CERTAINTEED: VERTICAL VINYL SIDING
Board & Batten

Stocked at the Erie Materials Distribution Center and ready for quick shipment!
Always check for current inventory status.

See Color Matrix on Page 105

Board & Batten vertical siding recreates the historic charm and rustic cedar look of a centuries-old siding style originally applied to log-built homes, barns and other early American structures.

- Ideal for whole-house or accent applications
- The widest vinyl board span in the industry
- Flat-face board design results in a straight, even surface
- Straight-edged battens for a sharp, carpentered look
- 1/2" batten height
- 12'6" panels are 2'6" longer than competitive panels, offering installation and aesthetic advantages

DIAMOND KOTE® SIDING SYSTEM

DIAMOND KOTE® DIFFERENCE

Using inferior materials can cost you more work, time, and money. Diamond Kote Siding System provides the highest quality materials ready when you need them, packaged to withstand the harsh conditions of transport and on the jobsite. Once installed, they stand the test of time, so you won't have to come back to correct product failures.

INDUSTRY LEADING WARRANTY

Diamond Kote's finish is specially designed to be low-maintenance and high performing. Whether you choose from our Solid or DuoBlend colors, we warrant our finish for 30 years!

EVERLAST®: COMPOSITE SIDING

Everlast® Siding

EVERLAST®
Advanced Composite Siding
everlastsiding.com

SPECIAL ORDER

Make a Lasting Impression

The solid, authentic, high-end look of real cedar siding, with none of the problems of real wood, engineered wood, or fiber cement.

- Virtually impervious to water, ideal for freeze/thaw environments
- Mineral composite with highly UV-resistant acrylic capstock and authentic CedarTouch® finish
- Never requires any caulking, painting, or seam flashing
- Industry's tightest, best-looking lap siding seams, preloaded with stainless steel seam brackets
- Superior wind, hail, and impact resistance
- Superior dimensional stability
- Homeowners' industry-best transferrable limited lifetime warranty including fade protection
- Requires no proprietary or specialty tools to cut or install
- EZStack joinery speeds lap siding installation and ensures level with consistent course spacing
- Convenient EZNail® fastener slots on lap nailing hem every 8" O.C.
- Everlast Premium Color-Matched Trim collection available

Available in all 15 colors.

The Everlast Siding palette*—including deep, rich hues—has been thoughtfully curated by color consultants to complement any style of home or regional preference, as well as both current and classic color trends.

*Contact Erie Materials for product availability.

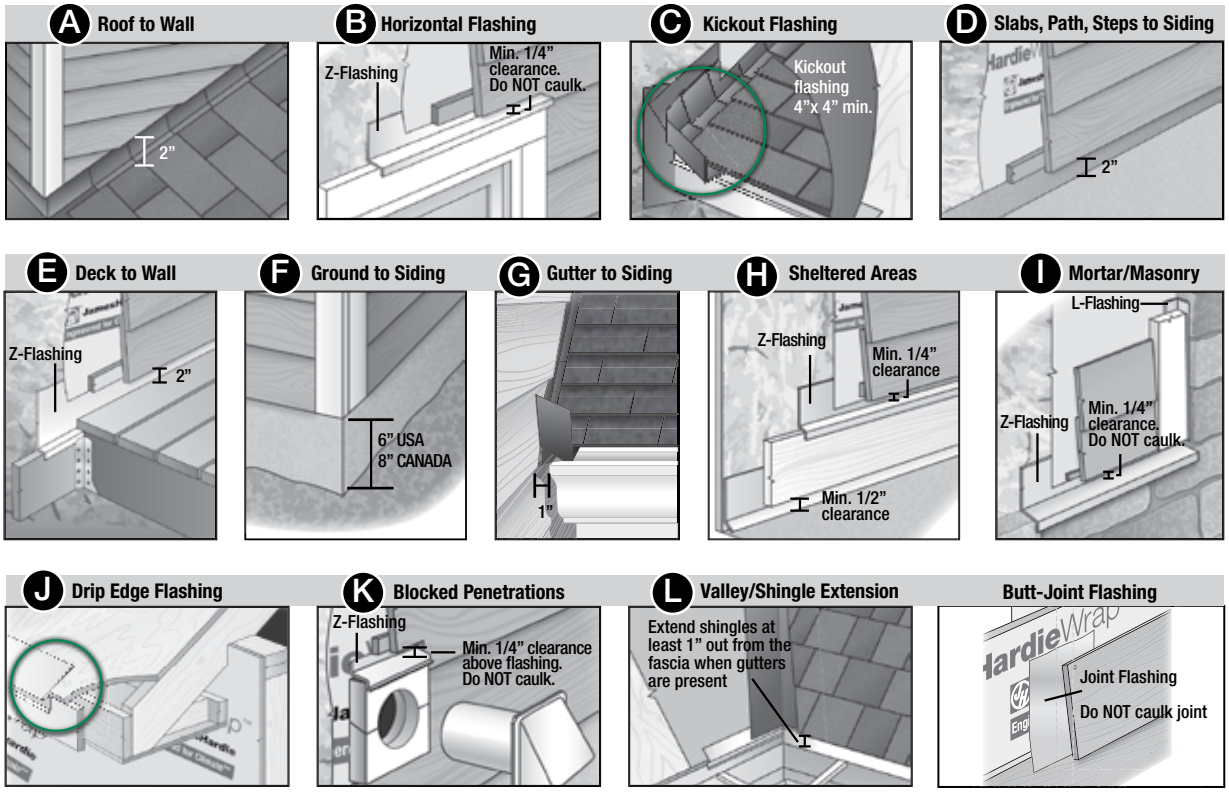
IMPORTANT: This document is not intended to take the place of James Hardie published installation instructions. Failure to install and finish this product in accordance with applicable building codes and James Hardie published instructions may lead to personal injury, affect system performance, violate local building codes, and void the product only warranty. For the latest set of complete installation instructions applicable to your jobsite location, visit HardieInstallation.com or call 1-866-942-7343 (866-9-HARDIE)



IMPORTANT FASTENING INFORMATION: James Hardie® siding, trim and soffit products must be installed in a manner that meets local building code and wind load requirements. It is the responsibility of the installer, builder, architect or other building professional and the home or property owner to ensure the fasteners and fastening schedules used result in an installation that is code compliant.

Consult ESR 1844 and ESR 2290 or other applicable, local code compliance documentation for guidance on fastener selection and placement to achieve design wind loads for the specific James Hardie siding product, framing type, building height, wind exposure category and other factors relevant to your project.

For special circumstances outside the scope of these documents, please refer to the Technical Document library at www.jameshardie.com or contact James Hardie's Technical Services at 1-888-J-HARDIE (1-888-542-7343).

LP SMARTSIDE®: ENGINEERED WOOD SIDING

LP SmartSide®

LP SmartSide TRIM & SIDING

lpcorp.com/smartside

LP® SmartSide® trim & siding products deliver the authentic look of real wood, with many advantages over traditional wood trim and siding.

- Free of knots so you don't waste time sorting through flawed pieces
- Resists cupping and warping
- Factory pre-primed to take paint well, delivering optimal adhesion and consistent application
- SmartGuard® manufacturing process helps protect against termite damage and fungal decay
- 5/50-Year Transferable Limited Warranty provides a five-year, 100% labor and replacement feature and a 5/50-Year Prorated Limited Warranty on the product

The difference is clear: LP SmartSide products are the smart choice.

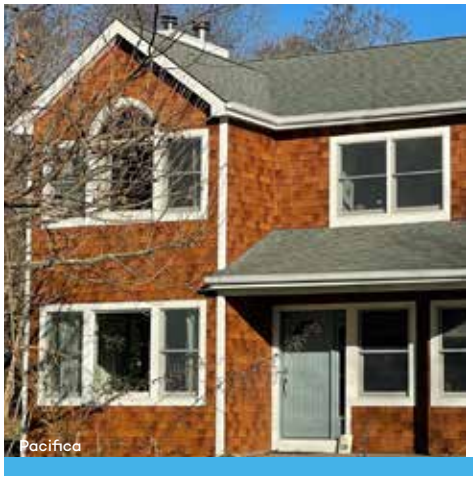
TANDO COMPOSITES: COMPOSITE SHINGLES

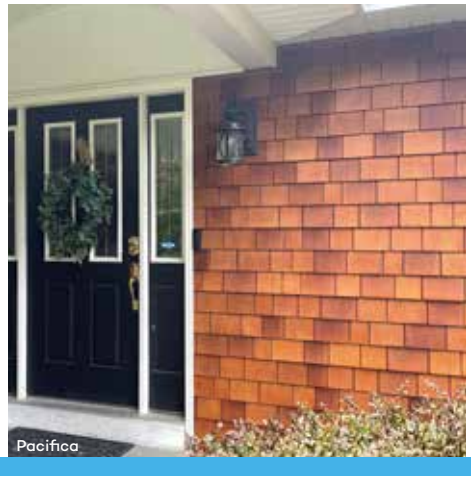
Beach House Shake®

The **Authentic** Composite Shingle

Tando® COMPOSITES

tandocomposites.com





Imagine if natural cedar shingles could stay looking "natural", just like the day they were installed, for the life of a home. Now they can with Beach House Shake — the authentic composite shingle.

Beach House Shake's innovative composite technology delivers a new level of aesthetic and architectural precision. Every individual shingle is unique with the subtle nuances you demand from cedar shingles — including strikingly realistic grains, saw cuts, and natural color variations.

- KAPGUARD® with Kynar® coating provides guaranteed color protection for 20+ years
- Installs in a fraction of the time compared to traditional cedar shingles
- Available in four natural cedar shades.

Creek Ledgestone

Nordic Mist

Rocky Mountain Clay

TandoStone Creek Ledgestone features the look of individually stacked pieces of stone where the horizontal ledge is more defined than the vertical joints. It offers a rough, dimensional surface with jagged edges that play with natural lights and shadows.

- A true game-changer for siding installers
- Stone that installs as quickly and easily as traditional siding
- Fast easy-one person installation
- Impervious to moisture
- KAPGUARD® with Kynar® coating provides guaranteed color protection for 20+ years

TruExterior® Siding & Trim

truexterior.com

TRUEXTERIOR: COMPOSITE SIDING

Craftsman Collection™

The TruExterior® Siding Craftsman Collection™ is the first man-made siding to replicate the natural aesthetic of real wood.

Like wood, TruExterior® Siding…

- is easy to handle (similar weight)
- can be painted any color with exterior-grade latex paint
- is easy to cut, rout, drill and mill
- can be installed using woodworking tools and methods

Unlike wood, TruExterior® Siding…

- has exceptional durability
- is resistant to rotting, cracking and splitting†
- offers excellent workability

Unlike many other exterior products (such as wood composites, fiber cement and vinyl/PVC), TruExterior® Siding…

- is suitable for ground contact
- does not require end-sealing, special adhesives or other cumbersome and costly installation techniques
- can be painted any color

† See TruExterior™ Siding and Trim Limited Warranties and Product Data Sheets for test results.

Tapes & Tools	CODE
3.75" x 90' Tape (1 roll per 7 ZIP panels)	ZITA
6" x 75' Tape	ZITA6
3.75" ZIP Tape Gun	ZITAGU

Installs Faster & Easier

- Up to 40% faster than traditional sheathing and housewrap[1]

Eliminates Rework

- Protective barrier is built into the panel, eliminating rips and tears typical of traditional housewrap
- ZIP System tape will not blow off

Code-Recognized Water-Resistive Barrier

- Built-in Stormex® water-resistive barrier keeps bulk water out during and after construction and eliminates the risk of water becoming trapped between housewrap and sheathing

Structural 1 Rated

- 4' x 9' and 4' x 10' panels

Type 1 Air Barrier

- Reduces air infiltration, helping to maintain the R-value of insulation and promote energy efficiency
- ZIP System tape reduces air leaks

Panel Breathability

- Specially engineered to vent moisture vapor through the panel, letting walls breathe and dry out

Peace of mind

- Limited 30-year system warranty[2]

[1] Based on time studies conducted by an independent third party and 2005 ZIP System builder survey.

[2] Limitations and restrictions apply — see zipsystem.com for details.

For ZIP Roof Panels, see page 165

ZIP System Wall is recognized by IBC and IRC (ESR-1474) as a structural wall panel and water-resistive barrier all in one. FL DCA Product Approval Number 6565-R2.

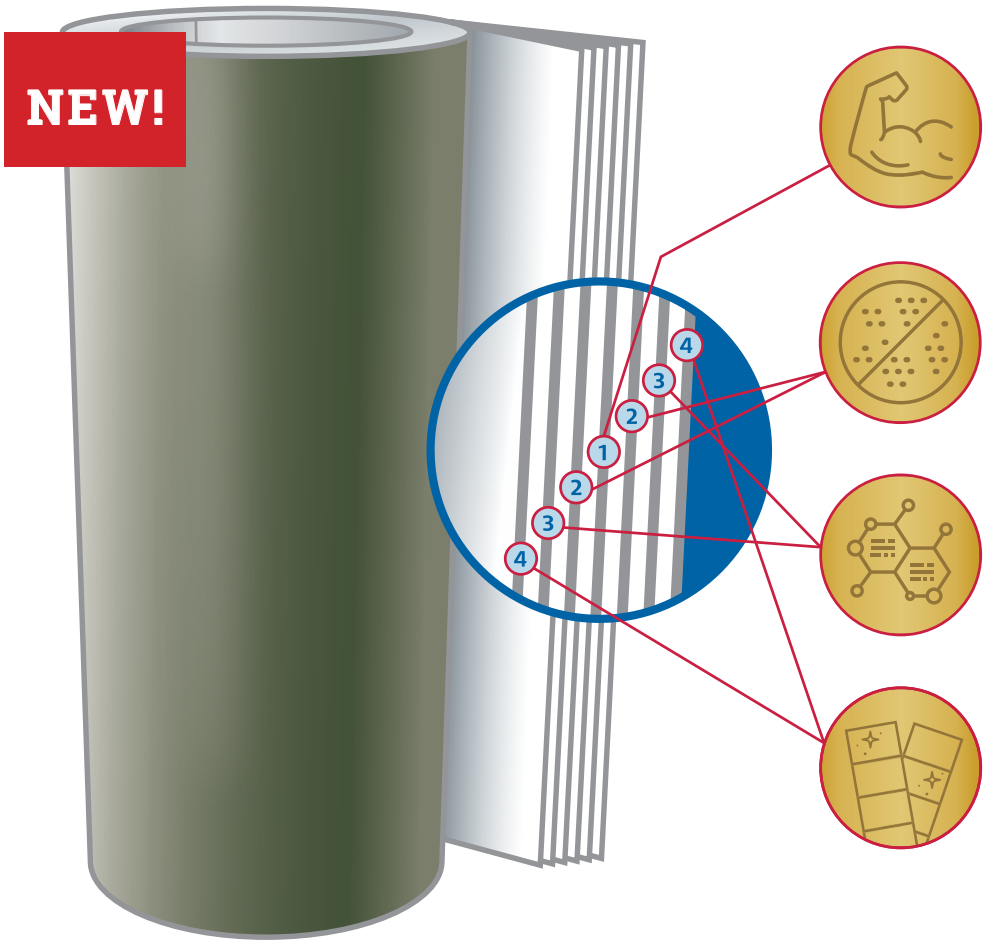
Trim Sheet

TRIM COIL doesn't simply cover up your exposed trim. Our proprietary process results in a product that **actively protects** homes from the elements, keeping them looking beautiful for longer.

NEW!



Our exclusive **smooth Dymalar® 2000** finish to create easy-to-form, mark and abrasion-resistant trim coil. **It's engineered to withstand the harshest elements for a lifetime of virtually maintenance-free beauty,** and ALSCO® aluminum products are backed by a limited, lifetime warranty guaranteed not to crack, split, peel, flake or rust.

ALSCO® Trim Coil is available in 24 in. x 50 ft. coil size and offers the very best color matches to virtually any siding in today's marketplace, including many leading brands like **CertainTeed®, James Hardie®, and more**.

Made right in America's Heartland.

We've been a privately-owned American company since our founding in 1947. **Today, ALSCO directly employs 100 American workers**, and our decisions to obtain manufacturing materials locally supports even more jobs right here in the USA.

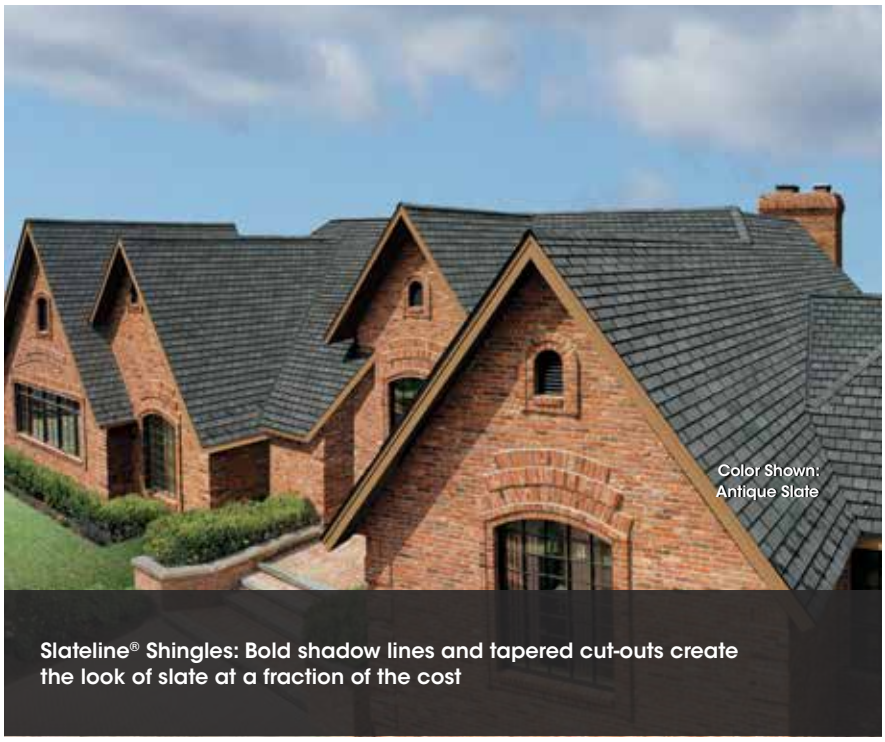
GAF Slateline®
Designer Lifetime Shingles

Available Colors



Slateline® Shingles: Bold shadow lines and tapered cut-outs create the look of slate at a fraction of the cost

Scan this QR Code to learn more about Advanced Protection

[1] This wind speed coverage requires special installation; see GAF Shingle & Accessory Limited Warranty for details.

[2] See GAF Shingle & Accessory Limited Warranty for complete coverage and restrictions. The word "Lifetime" refers to the length of coverage provided by the GAF Shingle & Accessory Limited Warranty and means as long as the original individual owner(s) of a single-family detached residence [or the second owner(s) in certain circumstances] owns the property where the shingles are installed. For owners/structures not meeting the above criteria, Lifetime coverage is not applicable.

[3] These products are not available in all areas. See www.gaf.com/ridgecapavailability for details.

[4] 25-year StainGuard Plus™ Algae Protection Limited Warranty against blue-green algae discoloration is available only on products sold in packages bearing the StainGuard Plus™ logo. See GAF Shingle & Accessory Limited Warranty for complete coverage and restrictions.

[5] Periodically tested by independent and internal labs to ensure compliance with ASTM D3462 at time of manufacture.

[6] Lifetime refers to the length of warranty coverage provided and means as long as the original individual owner(s) of a single-family detached residence [or eligible second owner(s)] owns the property where the qualifying GAF products are installed. For other owners/structures, Lifetime coverage is not applicable. Lifetime coverage on shingles requires use of GAF Lifetime shingles only. See *GAF Shingle & Accessory Limited Warranty* for complete coverage and restrictions. Lifetime coverage on shingles and accessories requires use of any GAF Lifetime Shingle and at least 3 qualifying GAF accessories. See *GAF Shingle & Accessory Limited Warranty*[/italics] for complete coverage and restrictions. Visit gaf.com/LRS for qualifying GAF products. For installations not eligible for the *GAF Roofing System Limited Warranty*, see the *GAF Shingle & Accessory Limited Warranty*.

Highest Roofing Fire Rating
UL Class A, Listed to ANSI/UL 790.

Stays in Place
Dura Grip™ Adhesive seals each shingle tightly and reduces the risk of shingle blow-off. Shingles warranted to withstand winds up to 130 mph (209 km/h).[1]

Peace of Mind
Lifetime limited transferable warranty with Smart Choice® Protection (non-prorated material and installation labor coverage) for the first ten years.[2]

Perfect Finishing Touch
Use Timbertex® Premium Ridge Cap Shingles.

Premium Color Blends
Combine our latest granule colors with GAF's advanced blending technology, resulting in exceptionally vibrant, premium color options.

High Performance
Designed with Advanced Protection® Shingle Technology, which reduces the use of natural resources while providing excellent protection for your home.

25-Year StainGuard Plus™ Algae Protection Limited Warranty[4]
Proprietary GAF Time-Release Algae-Fighting Technology helps protect your shingles from unsightly stains.

Product/System Specifics
- Fiberglass asphalt construction
- Dimensions (approx.): 17"x40" (431.8 x 1016mm)
- Exposure: 7 1/2" (190.5mm)
- Bundles/sq: 3
- Pieces/square: 48
- StainGuard Plus™ Algae Protection Limited Warranty[4]
- Limited Warranty
- Hip/Ridge: TimberTex®[3]
- Starter: WeatherBlocker™

Applicable Standards & Protocols:
- UL listed to ANSI/UL 790 Class A
- UL997 modified to 100mph
- State of Florida approved
- Classified by UL in accordance with ICC-ES AC438
- Meets ASTM D3018, Type 1
- Meets ASTM D3161, class F
- Meets ASTM D3462[5]
- Meets ASTM D7158, Class H
- Miami-Dade County Product Control Approved
- Meets Texas Department of Insurance Evaluation

GAF: LIFETIME SHINGLES

GAF Timberline HDZ® High Definition® Shingles

Available Colors

Color Shown: Cedar Falls

To make a bold color statement with your new roof, explore the vibrant contrasting hues of the Timberline HDZ® Harvest Blend Color Collection.

Scan this QR Code to learn more about StainGuard® Plus Algae Protection Limited Warranty[1]

[1] 25-year StainGuard Plus™ Algae Protection Limited Warranty against blue-green algae discoloration is available only on products sold in packages bearing the StainGuard Plus™ logo. See GAF Shingle & Accessory Limited Warranty for complete coverage and restrictions.

[2] Results based on study conducted by Home Innovation Research Labs, an independent research lab, comparing installation of Timberline HD® Shingles to Timberline HDZ® Shingles on a 16-square roof deck using standard 4-nail nailing pattern under controlled laboratory conditions. Actual results may vary.

[3] 15-year WindProven™ limited wind warranty on Timberline® AH Shingles requires the use of GAF Starter Strips, Roof Deck Protection, Ridge Cap Shingles, and Leak Barrier or Attic Ventilation. See GAF Roofing System Limited Warranty for complete coverage and restrictions. Visit gaf.com/LRS for qualifying GAF products.

[4] These products are not available in all areas. See www.gaf.com/ridgecapavailability for details.

[5] Applies to some plants (that make referenced product).

[6] Periodically tested by independent and internal labs to ensure compliance with ASTM D3462 at time of manufacture.

[7] Lifetime refers to the length of warranty coverage provided and means as long as the original individual owner(s) of a single-family detached residence [or eligible second owner(s)] owns the property where the qualifying GAF products are installed. For other owners/structures, Lifetime coverage is not applicable. Lifetime coverage on shingles requires use of GAF Lifetime shingles only. See *GAF Shingle & Accessory Limited Warranty* for complete coverage and restrictions. Lifetime coverage on shingles and accessories requires use of any GAF Lifetime Shingle and at least 3 qualifying GAF accessories. See *GAF Shingle & Accessory Limited Warranty* for complete coverage and restrictions. Visit gaf.com/LRS for qualifying GAF products. For installations not eligible for the *GAF Roofing System Limited Warranty*, see the *GAF Shingle & Accessory Limited Warranty*.

Note: It is difficult to reproduce the color clarity and actual color blends of these products. Before selecting your color, please ask to see several full-size shingles. Color availability may vary, ask an associate for details.

Custom-designed color palette
Professionally designed color palette featuring subtle blends with contrasting colors.

Extra-dimensional
Optimized construction and advanced color application techniques result in an extra-dimensional look.

LayerLock™ Technology
Mechanically fuses the common bond between overlapping shingle layers.

Up to 99.9% nailing accuracy
The StrikeZone™ nailing area is so easy to hit that 999 out of 1,000 nails were placed correctly in testing.[2]

WindProven™ Limited Wind Warranty
Timberline HDZ® Shingles are eligible for a wind warranty with no maximum wind speed limitation.[3]

Dura Grip™ sealant
Pairs with the smooth microgranule surface of the StrikeZone™ nailing area for fast tack. Then, an asphalt-to-asphalt monolithic bond cures for durability, strength, and exceptional wind uplift performance.

25-Year StainGuard Plus™ Algae Protection Limited Warranty[1]
Proprietary GAF Time-Release Algae-Fighting Technology helps protect your shingles from unsightly stains.

High performance
Designed with Advanced Protection® Shingle Technology.

Perfect finishing touch
For the best look, use TimberTex® Premium Ridge Cap Shingles[4]

Limited Wind Warranty[1]	130 mph	Coverage Per Bundle	33 1/3 ft²
Blue-Green Algae Resistant[1]	Yes	Shingles Per Square	60

STANDARDS[5]
ASTM D3462
ASTM D3018
ASTM D7158 — Class H
ASTM D3161 — Class F
ASTM E108/UL 790 — Class A
FM 4473 — Class 3[3]

Performance Elevated.

IKO Dynasty shingles offer superior protection against wind uplift and water infiltration. Dynasty shingles are among the industry's heaviest thanks to a durable fiberglass mat covered with a thick coat of asphalt.

Dynasty features the ArmourZone, which offers unparalleled nail-holding power, helping the shingle resist high winds. And IKO's FastLock® sealant on every shingle further strengthens Dynasty's defiance of Mother Nature's wrath.

The secondary benefit of ArmourZone's larger nailing area is that it allows for easier and more accurate nailing. Combined with Dynasty's 5 7/8-inch exposure and larger-than-average overall size, it goes down faster and covers more area than most average-sized comparable laminate shingles.

They are available in IKO's exclusive hi-definition color blends that will make your customer's home the envy of the neighborhood.

IMPORTANT! To ensure complete satisfaction, please view several full-size shingles and an actual roof installation prior to final color selection as the shingle swatches and photography shown online, in our brochures and in our ***ROOF*Viewer®** tool may not accurately reflect shingle color and do not fully represent the entire color blend range nor the impact of sunlight.

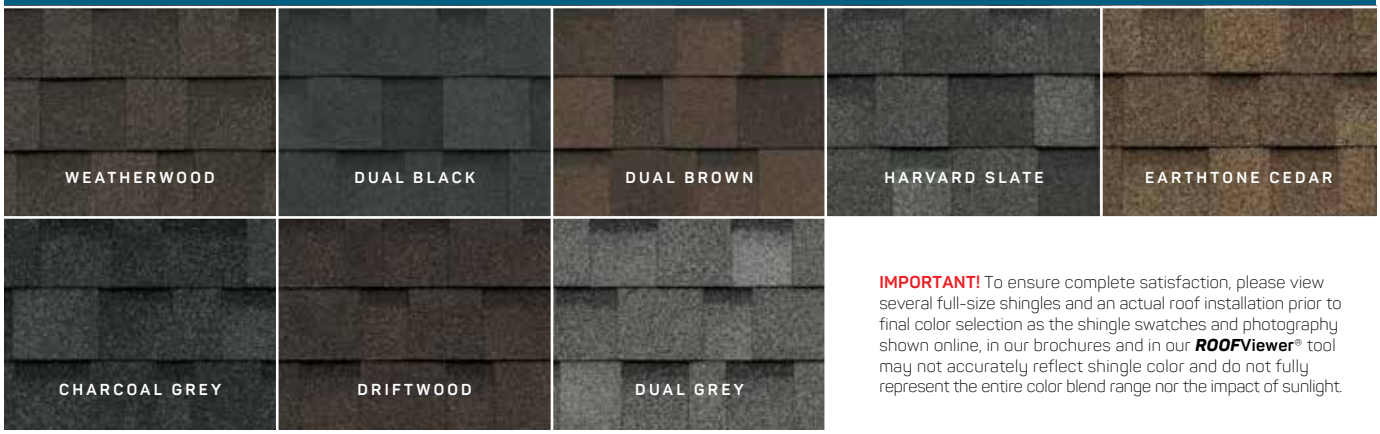
ASTM D7158 — Class H
ASTM D3161 — Class F
ASTM E108/UL 790 — Class A

IKO's Most Popular Shingle Gives You an (Almost) Unfair Advantage.

IKO Cambridge architectural laminate shingles in our special Advantage size feature a 5 7/8" exposure that is bigger than most in their class. They go down fast and easy. And with full coverage, the job costs associated with extra bundles and the labor to install them are lowered too.

Proper installation is vital for effective weather resistance. That's why we've enlarged our nail line to guide installers for correct nail placement and have made our FastLock® sealant thick and aggressive to promote a strong bond.

Homeowners will enjoy the high-end designer architectural appearance without the high-end designer cost.



IMPORTANT! To ensure complete satisfaction, please view several full-size shingles and an actual roof installation prior to final color selection as the shingle swatches and photography shown online, in our brochures and in our ***ROOF*Viewer®** tool may not accurately reflect shingle color and do not fully represent the entire color blend range nor the impact of sunlight.

ZIP System® Roof Sheathing

ZIP System® structural roof panels with built-in protective barriers and the specially designed ZIP System™ tape let you say **goodbye to housewrap, clips and felt forever.**

Simply install the panels, tape the seams, and you're done!

ZIP Roofing panels can be used for vertical wall applications, too!

ZIP Roofing

½" × 4' × 8'	12ZIRO
⅝" × 4' × 8'	58ZIRO
⅝" × 4' × 8' Tongue & Groove	58ZIROTG

Please call for pricing

Tapes & Tools

3.75" x 90' Tape (1 roll per 7 ZIP panels)	ZITA
6" x 75' Tape	ZITA6
3.75" ZIP Tape Gun	ZITAGU

Installs faster & easier
- Installs up to 40% faster than traditional housewraps and felt[1]
- Instant rough dry-in for 180 days
- No more waiting for felt installation. Schedule your subs faster and finish houses more quickly
- Metal roofing and fiber cement siding can be installed directly over ZIP panels

Eliminates rework
- Protective barriers are built into the panels, eliminating rips and tears typical of traditional felt or housewrap
- ZIP System tape will not blow off or rip underfoot

Structural 1 Rated
- 1/2" and 5/8" panels

Differentiates projects
- Jobsites stand out and have a cleaner custom appearance

Peace of mind
- Limited 30-year system warranty[2]

[1] Based on time studies conducted by an independent third party and 2005 ZIP System builder survey

[2] Limitations and restrictions apply — see zipsystem.com for details

ZIP System Roof is recognized by IBC and IRC (ESR-1473) as a structural roof panel and underlayment all in one, FL DCA Product Approval Number 5930-R1.

EPDM Low-Slope Roofing System

Materials Estimator Guide

DETAIL & INSTALLATION VIDEOS

ERIE MATERIALS
BUILDING PRODUCT SOLUTIONS

EPDM is a professional-quality rubber roofing system for low-slope roofs. This EPDM product is identical to the rubber membrane that has proven effective for commercial and industrial applications for over 40 years.

Erie Materials offers a complete line of membrane and accessories designed with any size job in mind.

- EPDM Rubber Roofing Membrane is a single-ply roofing system.
- EPDM remains flexible in hot and cold temperature extremes.
- EPDM Peel & Stick accessories save time and money.
- EPDM is ideal for first-time single-ply applicators.
- Up to 20-year material warranties are available.
- EPDM is perfect for any job – large or small.

EPDM roofing membrane can be applied over a variety of substrates including wood, metal, plastic, fiberglass, rubber, masonry, brick, smooth-surface built-up roofs, painted surfaces, wood fiberboard, lightweight concrete and polyisocyanurate to name a few. The substrate surface should be clean and free of dust, dirt, rust, oil, grease and loose materials.

Product	Description and Use	Calculation	Material Needed
1. Membrane	EPDM membrane is used as the waterproofing material which is bonded to the substrate. EPDM membrane is available in different sizes and lengths as well as black and white. Membrane should extend up perimeter walls by 12 in. and hang over the edge of the roof by 3 in. Seams should overlap by 3 in.	Roof length X width + 12 in. for wall terminations + 3 in. overlap for seams + 3 in. overhang off the roof edge.	sq. ft.
2. Bonding Adhesive	EPDM Bonding Adhesive is used to bond the membrane to the substrate. Bonding Adhesive is roller applied to both surfaces and the membrane is rolled into place. Finished coverage rate is 60 sq. ft./gallon.	Roof length X width ÷ 60 = gallons of bonding adhesive needed.	gallons
3. Peel & Stick Seam Tape	Peel & Stick Seam Tape is used to bond the edges of two panels of EPDM membrane together. Seam Tape is available in rolls up to 100 ft. in length.	Panel size and layout will determine seam length.	rolls
4. Multipurpose Primer	Multipurpose primer is used to prepare the EPDM membrane surface anywhere Peel & Stick products are used, including Seam Tape, Cover Strip, Pipe Seals, and Inside/Outside Corners.	Coverage rate is 3 in. x 300 linear ft./gallon.	gallons
5. Peel & Stick Inside/Outside Corners	Peel & Stick Inside/Outside Corners are an easy way to finish corner details. Primer is required wherever the Corners are used. Peel & Stick Uncured Flashing can also be used.	One Peel & Stick Inside/Outside Corner per corner.	corners
6. Peel & Stick Cover Strip	Peel & Stick Cover Strip is used to strip in metal drip edges, as well as cover cuts in the EPDM membrane. T-Joint Covers, which are to be used at all locations where three layers of membrane overlap, can also be made from Cover Strip. Cover Strip is available in rolls up to 100 ft. in length.	Metal drip edge length + distance from penetrations to the nearest edge of the membrane + T-Joint Covers ÷ 100 = number of rolls needed.	rolls
7. Peel & Stick Reinforced Perimeter Strip (RPS)	Peel & Stick Reinforced Perimeter Strip is required for additional securement at any vertical angle change such as curbs, skylights, wall, etc. Available in 100′ rolls	Length of parapet wall + length of skylight perimeters + length of any other locations of angle change ÷ 100	rolls
8. Peel & Stick Pipe Seal	Pre-molded Peel & Stick Pipe Seals create a watertight seal around cylindrical penetrations from 1 in. to 6 in. in diameter.	One Pipe Seal for every 1 in. to 6 in. pipe.	pipe seals
9. Water Cut-Off Mastic	A gasket-forming liquid compression sealant used behind termination bars and pipe seals.	10 linear ft./tube	tubes
10. Lap Sealant	Used to seal exposed membrane edges including Cover Strip edges, tops of termination bars and pipe seal edges.	22 linear ft./tube	tubes
11. Termination Bar	Used to terminate membrane on a vertical surface including on a parapet wall or over the roof edge. Available in 10 ft. lengths.	Length of perimeter + length of other vertical terminations.	ft.

This Material Estimator is designed to facilitate the development of a materials list. Due to the unique nature of each individual project we make no representations that the list provided will be absolute.

Repair EPDM Roofs

Quickly, easily & affordably with Millennium cover strips & flashing tapes

Millennium EPDM Cover Strips are designed to cover, protect, and seal mechanical fastening bars, membrane fasteners, core sample repair patches, membrane repairs, and seam overlays in all EPDM roofing systems. The strips are composed of a semi-cured EPDM membrane laminated to a 25-mil EPDM-based pressure-sensitive tape adhesive.

Millennium EPDM Flashing Tapes are extremely flexible and can be formed to fit irregular shapes and surfaces.

SELF-ADHERED CURED COVER STRIP	5" x 100'	MICO5
SELF-ADHERED UNCURED FLASHING	6" x 100'	MISAFL6
	9" x 50'	MISAFL9
	12" x 50'	MISAFL12

Requires tape primer.

FEATURES	BENEFITS
Resistant to UV light, high heat, and moisture	Long-term durability
Excellent adhesion to multiple substrates	Suitable for a wide variety of sealing applications
No torch or liquid adhesives	Improved safety
Fast installation	Saves time and labor
Waterproof detail	Suitable for roofing, pond lining, and waterproofing applications

KARNAK: FLASHINGS, CEMENTS & COATINGS

KARNAK THE SEAL OF QUALITY
karnakcorp.com

#19 Flashing Cement

General purpose for repairing leaks in shingles, concrete, metal or asphalt roofs, flashing on walls, chimneys, flues, downspouts and cornices.

1 gal.	119
5 gal.	519

#27 Fibered Aluminum Roof Coating

For existing metal roofs, modified bitumen and BUR. Used on granular surfaces and helps fill in hairline cracks.
Coverage: Approx. 1-2 gal./100 s.f.

5 gal.	527ASFR

#71 Fibered Roof Coating

All-purpose black fibrated roof coating for maintenance of existing built-up roofs.
Use on alligatored or rough roof surfaces
Coverage: Approx. 4-6 gal./100 s.f. (brush)

5 gal.	571

#81 Modified Bitumen Adhesive

Use with CertainTeed Flintlastic and Owens Corning DeckSeal
Specifically designed as an adhesive for SBS-modified bitumen single-ply membranes such as CertainTeed Flintlastic and Tamko Awaplan 170.
Coverage: Approx. 1-2 gal./100 s.f.
Brush- or trowel-grade available

5 gal.	581BR/581TR

#155 Amphibikote

Cold-process emergency roof cement that can be applied in wet or dry conditions. Excellent for emergency roof repair.

5 gal.	5155

#19 Ultra Flashing Cement

Rubber reinforced, wet/dry trowel-grade application.

3 gal.	319UL
10.1 oz. tube	UL19100Z

#28 Non-Fibered Aluminum Roof Coating

For existing metal roofs, modified bitumen and BUR
Use on smooth roof surfaces in good condition.
Coverage: Approx. ½-1 gal./100 s.f.

5 gal.	528

#78 Cold-Process Cement

Used as a blind nail or lap cement with prepared rolled roofing.
Also used with #3036 Poly-Mat.
Coverage: Approx. 2 gal./100 s.f. (brush)

5 gal.	578

#108 Asphalt Primer

Use with CertainTeed Flintlastic and Owens Corning DeckSeal
A non-fibered damp-proofing primer. Dries to a flexible black finish.
Also used to prime metal surfaces for modified bitumen applications.

14-oz. spray	108SP

#220 Fibered Emulsion Roof Coating

For resurfacing smooth or slightly alligatored roofs.
Can also be used as masonry damp-proofing.
Coverage: Approx. 4–6 gal./100 s.f.

5 gal.	5220

Roof Restoration Products

Gaco Patch Silicone Roof Patch

WHEN A PATCH NEEDS TO BE PERMANENT

IN STOCK

2 gal.

2-gal. pail = 8 gal. roofing cement = 50 sq. ft. per gal. at 1/8" thick

When a Patch Needs to Be Permanent

- Fiber-reinforced silicone roof patch
- Waterproof
- Can be applied to damp surfaces
- Flashing grade
- One-step application — no primer or seam tape required
- UV stable
- Limited material warranty
- Black, white or gray

Use it on:

- Cracks
- Expansion Joints
- Flashings
- Gutters
- Seams
- Pipes
- Pitch Pans
- Penetrations
- Small Holes
- Transitions
- Vents
- Voids

Call for pricing.

S42 Series

One coat application. No primer needed!*

The high-adhesion alternative to replacing weathered roofs.

GacoFlex S42 Series is a 100% silicone roof coating solution that can be **installed over virtually any existing roof substrate***, creating a durable, seamless membrane that helps protect the roof from permanent ponding water, ultraviolet light and severe weather.

GacoFlex S42 Series covers more surface area with less material than many other competitive silicones and exhibits outstanding peak hide coverage on granulated surfaces. With its strong adhesion to multiple types of surfaces, **it eliminates the need for an epoxy primer** in many cases, allowing faster installation.

It has a limited material warranty and qualifies for a GacoFlex System Warranty when installed by a Gaco Qualified Applicator.

* Always perform an adhesion test to ensure compatibility.

5 gal.
Covers 400 sq. ft. at 18 dry mils.
Tan, white or gray

GACO UNIVERSITY

GacoRoof 100% Silicone Roof Coating protective coating is designed to seal and repair existing flat roofs and permanently protect against leaks, permanent ponding water, and the damaging effects of severe weather. It is the only coating on the market that stands up to ponding water without bubbling, peeling or breaking down. It stays flexible and maintains adhesion, even under permanent ponding water or snow pack. And it does not require a recoat.

GacoRoof® 100% Silicone Roof Coating

Silicone Roof Coating

1 gal. covers 50 sq. ft.

Gray	GAROGR1
White	GAROWH1

5 gal. covers 250 sq. ft.

Gray	GAROGR5
White	GAROGWH5

100% SILICONE. Outperforms and outlasts other coatings.
NO PRIMER REQUIRED.
REMAINS PERMANENTLY FLEXIBLE. Other coatings become brittle and degrade.
WITHSTANDS PERMANENT PONDING WATER.
NON-SACRIFICIAL. Unaffected by harsh UV rays and temperature extremes.
PREVENTS COSTLY TEAR OFFS.
LIMITED MATERIAL WARRANTY.

Wash Concentrated Cleaner

A concentrated cleaning solution for roof membranes and existing waterproof systems, it is specially formulated to remove tough dirt, pollen, mildew and fungus. It is the first step in every GacoFlex Silicone Roof Coating System.
Coverage: 4000 sq. ft.
1 gal. GAROWASH

LiquidRoof Tape

A thick, high-build, rubber-like liquid consisting of 100% silicone and microfibers. LiquidRoofTape will fill cracks, voids and depressions; reinforce joints, seams, penetrations and transitions; and completely encapsulate fasteners and protrusions.
Coverage: 50 l.f. at 3" wide x 1/8" thick, 25-50 sq. ft. as a top coat
1 gal. GALTAPE1

2-Part Epoxy Primer/Filler E5320

A 100% solids two-component penetrating epoxy sealer that offers excellent penetration into concrete and masonry surfaces to form a tight bond to the substrate. Contains very low VOCs.
Coverage: 150-190 sq. ft., depending on application method
2 gal. GAROEPPR

All prices subject to change. Not responsible for typographical errors.

GAF: COATINGS

GAF Roof Coating Systems

GAF RoofCoatings
gaf.com

GAF High Solids Silicone

A high solids, moisture-cure silicone coating that provides protection against weather elements, UV rays, and leaks due to ponding water for a variety of substrates.

- Can be applied in a single coat*
- Protection against ponding water
- Up to 20 year warranties available
- 97% average solids by volume
- Available in white, gray, and tan

Coverage rate: 50 sq. ft per gallon 5 gal. GARCUHWHIT

GAF Repair Pro

A solvent-based, synthetic, self-leveling elastomeric product. Repair Pro can be applied to most damp substrates to stop leaks immediately.

- No primer required on most substrates*
- No mixing required
- Seals metal roof fasteners
- 10 oz cartridges or 1 gallon can
- Black or White

Coverage Rates:
Fastener Coverage: 350 - 400 fasteners/gallon
Split Seam Repair : 13 sq. ft per gallon
1 gal. GARCRPS(BLAC/WHIT) 10 oz. tube GARCRPSTWHIT

GAF Silicone Mastic

A high-build silicone flashing that provides protection against ponding water. Silicone Mastic can be used in conjunction with GAF Unisil HS or as a standalone repair and maintenance item.

- High Solids Formulation
- UV Stable - no topcoat required
- Versatile application ideal for maintenance repairs
- White (in stock), Gray or Black

3.5 gal. GARCSMWHIT

GAF Cleaning Concentrate Cleaner

Excellent cleaning capabilities with most types of coatings including acrylic, polyurethane silicone and Hypalon®. 100% biodegradable.
1 gal. Coverage: 1500 to 2000 sq. ft. GARCCC1
5 gal. Coverage: 7500 to 10,000 sq. ft. GARCCC5

GAF EPDM Activator Cleaner

Water-based rinsable primer used directly on EPDM applications.
5 gal. Coverage: 2500 sq. ft. GARCEAC

GAF Premium Fabric

A tough, non-woven, stitchbonded, heat-set polyester designed for roofing and flashing applications of all types.
12" x 300' GARCPF12300 6" x 300' GARCPF6300

Horizon-Loc™

Horizon-Loc™, Basil texture

Prevents leaks with a hidden fastener design.

HORIZON-LOC PRODUCT GUIDE

Horizon-Loc can be installed with exposed or concealed fasteners. Extra protection from leaks, no hand-seaming, and lower insurance rates make Horizon-loc the perfect panel for both residential roofing, agricultural, and light commercial projects.

RECOMMENDED 3:12 PITCH AND ABOVE	26 GAUGE	16" OVERALL COVERAGE	1" MAXIMUM RIB HEIGHT

- ***Now available in SMP with Texture for added scratch resistance.***
- **Installs over solid decking with 30-lb. felt paper or equivalent.**
- **Available in painted AZ50 Galvalume or AZ55 acrylic-coated Galvalume.**

Notice how the light reflects off our traditional smooth finish creating a glare, but the Texture finish breaks up the light for a deeper, richer color.

All prices subject to change. Not responsible for typographical errors.

R-Loc®/M-Loc®

SPECIAL ORDER

R-Loc™, Galvalume roof/Charcoal Walls

Strong and ***durable***, for today's commercial market

R-Loc® and M-Loc® are our workhorse commercial panels for low-slope roofs. With the added purlin bearing leg, R-Loc® provides easy installation. M-Loc® is an excellent choice when the project requires a commercial-strength panel with a low-rib appearance.

- Industry standard configuration allows maximum purlin spacing for a cost-effective building.
- Ideal for low-pitch applications.
- Matching trims and accessories.

Ameri-Cana™ Panel

SPECIAL ORDER

AMERI-CANA™ PANEL

SUPERIOR STRENGTH AND VERSATILITY

Ideal Roofing's Ameri-Cana roofing and siding panel offers superior strength **with its strong 80,000 psi full-hard steel core** and its 5 specially-designed 3/4"-high ribs spaced every 9 inches. Superior strength means savings on wood or steel purlins for the builder. Please consult the following load tables.

"OUR RIBS ARE BETTER!"

The ribs on the Ameri-Cana panel are reinforced to better accommodate fasteners. With its symmetrical pattern and ribs with steeper angles, the Ameri-Cana panel is considered the ultimate roofing or siding panel for agricultural, commercial or industrial buildings as well as for residential roofing applications.

WEATHERTIGHT OVERLAP

Ideal Roofing's Ameri-Cana panel offers maximum protection against leakage with its built-in anti-siphon groove to counter water infiltration resulting from capillary action. This feature makes the Ameri-Cana panel "ideal" for use as a roofing sheet for long and low rafters with a roof pitch as low as 3/12.

UNIFORMLY DISTRIBUTED LOADS (LBS/FT²) FOR TRIPLE SPAN CONDITION

MARVIN

NEW!

DISCOVER

MARVIN AWAKEN™ SKYLIGHT

KEY FEATURES

1. **GLASS** Flush glazing sheds debris and prevents pooling
2. **SLEEK DESIGN** Narrow sightlines provide more visible daylight compared to current offerings from other manufacturers
3. **FRAME** Fiberglass frame with stainless steel hardware
4. **HIDDEN SCREEN** Awaken's unique parallel projection only requires a screen around the perimeter of the frame, which results in a clear, screen-free view of the outdoors
5. **SHADES** Integrated room-darkening or light-filtering shades available
6. **LIGHTING** Dimmable LED lights tunable from 2200k (comparable to light at sunrise/sunset) to 5500k (comparable to the sun at noon)

DISCOVER

MARVIN SKYLIGHT

NEW!

The Marvin Skylight delivers expansive views of the outside world and allows you to incorporate the benefits of natural light into your home. With its unique, design-forward sizes, narrow sightlines, and uncluttered aesthetic, the Marvin Skylight will introduce a beautiful, light-filled architectural element into any space.

FEATURES

- Sleek design
- Durable and low-maintenance structural polymer frame
- Narrow sightlines provide more visible daylight compared to other manufacturers
- Flush glazing sheds debris and prevents pooling
- Integrated condensation management system
- The same unit can be installed on either a curb or directly to the roof deck
- Laminated glass on all units
- Third party shades can be added
- Maximum sizes up to 48" x 90"

VELUX: SKYLIGHTS

VELUX®
veluxusa.com

Go Solar, Save Big!

Go Solar with VELUX and save your customers 30% on products and installation. They'll get a factory-installed solar blind, a free VELUX ACTIVE Gateway and lower net cost than purchasing a skylight alone.

Go Solar adds $425 to the cost of a deck-mounted FS skylight model. The tax credit alone will save your customers much more (see below). Plus, they'll enjoy the energy savings!

Learn more about how easy this tax credit is at **VELUXUSA.com/TaxCredit**.

Example of a VELUX Fixed Skylight with the Go Solar Option:

Fixed Skylight Option
Estimated price/savings

$440 Fixed Skylight & Flashing
+ $1,500 Installation
$1,940 Final Cost to Homeowner

Go Solar Option
Estimated price/savings

$840 Fixed Skylight, Blind & Flashing
FREE VELUX ACTIVE Gateway
+ $1,500 Installation
- $702 30% Federal Tax Credit*
$1,638 Final Cost to Homeowner*

Go Solar and save $302![2]

*Based on tax credit eligibility. For more information visit veluxusa.com/taxcredit.
1 VELUX ACTIVE Gateway not included with the Go Solar option for the VELUX Solar Powered "Fresh Air" Skylight.
2 Actual installation costs will vary from these estimates based on common variables in roof construction and shaft construction. Local delivery costs and applicable sales tax not considered for these estimates. These numbers are provided as estimates only.

ERIE MATERIALS
BUILDING PRODUCT SOLUTIONS

ERIE MATERIALS MILLWORK SERVICE SOLUTIONS GIVE YOU PEACE OF MIND

As a value-added service to you, our customer, Erie Materials maintains a full-time millwork service department with fully-equipped service vans to resolve field service requests.

If you have a window or door product issue—notify your territory manager or local Erie Materials branch immediately!

As soon as we learn of your issue, we'll fill out a **Field Service Opportunity (FSO)** request and provide you with a tracking number.

We expedite FSO requests for any jobs in progress. Our thorough Tracking and Follow-up System will follow your issue every step along the path to resolution whether we or a manufacturer are working on it.

Window products purchased from Erie Materials and still under the manufacturer's warranty will be serviced at no charge for a period of one year.

Out-of-warranty requests

Erie Materials will gladly facilitate the identification and ordering of necessary replacement parts. There will be a charge for installation, which you may have billed directly to your customer.

Our goal is to make your customer happy and let you get on to your next project!

ROOFING AND SIDING ISSUES

For roofing and siding issues, have your customer contact the respective warranty claims department listed below.
A warranty claim kit will then be sent directly to your customer from the manufacturer.

SIDING
