ANDERSEN: FIBREX® COMPOSITE MATERIAL WINDOWS & PATIO DOORS

100 SERIES

A MODERN LOOK THAT'S EASY ON THE BUDGET

Whether you're replacing, remodeling or building new, Andersen[®] 100 Series products offer many advantages over vinyl at a good value. They're made with innovative Fibrex[®] composite material which is 2X stronger and more durable than vinyl. They're also energy-efficient, environmentally responsible and available in a variety of rich, dark colors with finishes that are made to last,^{*} making them a better choice for your home.

20

- Fibrex material retains its stability and rigidity in all climates, so weathertight seals stay weathertight
- Fibrex material blocks thermal transfer nearly 700X times better than aluminum, helping to reduce heating and cooling bills
- The finish on 100 Series products offers superior scratch resistance and won't fade, flake, blister or peel*
- 100 Series products can withstand temperatures up to 150°F, even in dark colors, meaning they won't warp due to sun exposure
- Virtually maintenance-free premium matte finish inside and out
- Insert windows available in custom sizes for easy replacement

ENVIRONMENTALLY RESPONSIBLE

Fibrex composite material is composed of 40% reclaimed wood fiber by weight.

*Visit andersenwindows.com/warranty for details.

**When 100 Series products were tested against five leading competitors' painted vinyl window products.

ANDERSEN: CLAD WOOD WINDOWS & PATIO DOORS

A-SERIES

ARCHITECTURAL AUTHENTICITY, UNPARALLELED PERFORMANCE

Designed in conjunction with leading architects to provide authentic architectural style, A-Series windows and patio doors offer all of the options you need to easily create the look you've been dreaming of. Beyond delivering the style you want, A-Series products are the best performing, most energy-efficient windows and patio doors Andersen offers for true peace of mind.

- Frame is constructed with a wood core and a fiberglass exterior, which is virtually maintenance free, for superior strength, stability and long-term beauty.
- Exterior finish never needs painting and won't flake, rot, blister, peel or corrode*
- Weather-resistant construction for greater comfort and energy efficiency
- Rigorously tested in extreme temperatures for long-lasting performance
- With their weather-resistant seals, A-Series windows and doors can withstand up to eight inches of rain per hour and hurricane-force winds**
- Many A-Series windows and patio doors have options that make them ENERGY STAR[®] certified throughout the U.S.

*Visit andersenwindows.com/warranty for details.

**Andersen® A-Series double-hung window tested to AAMA/WDMA/CSA 101/I.S.2 A440-08 & -11 PG50.

ANDERSEN: MULTIGLIDE DOORS

MULTIGLIDE[™] DOORS

CONTEMPORARY & TRADITIONAL STYLES

Contemporary panels are available in an all aluminum design or aluminum-clad wood design and feature a 2 ³/₄" profile.

Traditional panels are available in an aluminum-clad wood design and feature 4 11/16" stiles and 4 11/16", 8" or 12" bottom rail heights.

DOOR CONFIGURATIONS

One-directional and two-directional stacking and pocketing configurations available.

Stacking & pocketing configurations up to 12 panels wide

WALK THROUGH WALLS

The MultiGlide[™] door not only connects a home to the outdoors, it can be customized to fit any home's design. Beyond offering ultimate design freedom, it's engineered for smooth, easy operation with seamless transitions.

KEY FEATURES

- Fits openings up to 50' wide and 10' tall*
- Panel widths 28" to 60" wide and 47 $^{1\!/}_{2}$ " to 116 $^{1\!/}_{2}$ " tall (47" to 117" for flush sill options)**
- Rated for air, water and structural performance[†]
- Thermally controlled option is available for increased performance with clad wood panels only
- Available with all standard Andersen glass options including triple-pane glass
- Insect screen options include aluminum framed bottom gliding screen panels or a retractable screen system
 - Retractable insect screen system is hidden from view when not in use and glides across the complete door opening, stopping at any desired location.

SILL OPTIONS

On-Floor Drainage Sill Options

Raised Threshold

Exterior Ramp

Designed to only project 3/16" above the finished floor. Material between rails shown to represent flooring

Flush Sill^{††}

ROLLERS

Continuously adjustable synthetic rollers are cycle tested 25,000 for proven operation, feature stainless steel ball-bearings and are contoured perfectly to match the track to increase ease of operation.

AUTOMATED OPEN/CLOSE SYSTEM[‡]

Automated open/close system is available on both stacking and pocketing door configurations and is operated using an interior touchpad and weatherproof exterior secure keypad. It can also be connected with a home automation system.

*Opening dimensions provided are rough opening. **Frame depth is dependent on number of panels. †Performance may vary based on unit size and options selected. Verify product performance prior to specifying door. ††MultiGlide doors utilizing the flush sill option will not be rated with air and water performance. ‡Sold separately. Automation is not available for doors with panels that are less than 36° in width and insect screens are not automated with this feature. Automation for MultiGlide door units over 25' in width is not provided by Andersen Windows. For more information regarding automation for MultiGlide doors over 25', please contact Summit Automation directly by visiting summitautomation.com.

"Performance Grade (PG)" ratings may vary from tested performance ratings for larger or smaller units of a particular type. Some units may not be rated.

This data is accurate as of April 2021. Due to ongoing product changes, updated test results or new industry standards, this data may change over time. Where designated, Andersen products are certified and labeled to the requirements of the Hallmark Certification Program. Actual performance may vary based on variations in manufacturing, shipping, installation, environmental conditions and conditions of use.

Contact your Andersen supplier for more information.

1. Standard on-floor drainage sill with raised threshold must be used for performance ratings. MultiGlide doors utilizing the optional flush sill type are not rated for air and water performance.

*Actual wood species is either Sapelle or Sipo, both non-endangered species grown in Africa, with color and characteristics similar to Central American mahoganies. Printing limitations prevent exact duplication of colors and replication of finishes.

See your Andersen supplier for actual color and finish samples.

WHY YOU SHOULD CHOOSE ERIE MATERIALS FOR YOUR ANDERSEN WINDOWS AND PATIO DOORS

ACCURACY

You will receive a printed quote showing all the details of your order. The data file from this quote is electronically submitted to the Andersen factory and used to build and ship your windows and accessories. This not only speeds up the process, but also prevents human errors caused by copying and communication.

RELIABILITY

- We manage the whole process: Quoting> Ordering> Receiving> Delivery> Warranty
- Experienced, knowledgeable staff
- Orders checked and double-checked so they're right and on time

WARRANTY

- We service what we sell
- Our service technicians have been trained at the Andersen factory
- No need to wait for a factory rep

As part of the Andersen Dealer Service Network, we can order service parts online. Andersen trusts us to take care of warranty issues.

MARVIN: SIGNATURE COLLECTION

PRODUCT COLLECTIONS

SIGNATURE COLLECTION

Previously known as Marvin Windows and Doors Includes Ultimate and Modern Product Lines

Featuring the Ultimate and Modern product lines, the Marvin Signature Collection offers the broadest range of product types, sizes, configurations, and design options. Every detail is considered, delivering the highest level of architectural correctness and unrivaled appeal.

The new one Marvin brand demonstrates that we are driven by a unified purpose and unwavering values, and represents the goals we share for design, quality, and customer service. Most importantly, customers have told us this new brand approach makes navigating our portfolio of solutions simple. Organizing by product collections helps us all differentiate Marvin from the competition and makes it easier to sell more Marvin on more projects.

ELEVATE COLLECTION Previously known as Integrity Wood-Ultrex

The Elevate Collection is thoughtfully designed to offer specifically-chosen features and options to help make your vision a reality. Warm, wood interiors with strong, durable, Ultrex[®] fiberglass exteriors, provide the ideal combination of beauty and strength.

ERIE MATERIALS

ESSENTIAL COLLECTION Previously known as Integrity All Ultrex

The Essential Collection makes it easy to achieve design and quality with clean lines, streamlined options, and powerful performance. Strong, durable, Ultrex fiberglass interiors and exteriors mean windows and doors that are virtually maintenance-free.

MARVIN[®]

SIGNATURE COLLECTION

ULTIMATE REDEFINING THE STANDARD

CREATE MORE OF WHAT YOU CAN IMAGINE

Made for those who care about every detail and simply won't compromise on their vision, the Signature Ultimate product line offers beautiful design, craftsman-quality construction, and a vast selection of shapes, styles, sizes, and options. With extensive customization opportunities and versatility across architectural styles, Ultimate windows and doors can be used in a wide range of projects, including traditional, contemporary, transitional, historic, craftsman, or whatever style inspires you.

FOR MORE INFORMATION VISIT: MARVIN.COM

DESIGN POSSIBILITIES

The beauty of Signature Ultimate is found in every thoughtful detail that, when combined, can completely transform how a room feels. Its extensive selection of design options means more flexibility to meet your projects needs.

EXTRAORDINARY INNOVATIONS

You'll feel Signature Ultimate quality in every touch. It's in simple and smart breakthroughs like Lift Lock hardware, which allows for easy access to open and lock a window. It's in our Lock Status Sensor, and features like Wash Mode.

UNMATCHED CRAFTSMANSHIP

Signature Ultimate windows and doors are available in a range of wood species and a variety of stains and paint options. We sand, condition, stain and oven-cure each individual piece of wood, providing a rich interior finish.

ULTIMATE WINDOWS

Designed for unprecedented performance and exceptional aesthetics, we offer window options for every style of home in any climate. From a classic double hung to European-style tilt turns and casements in industry-leading sizes.

ULTIMATE DOORS

Marvin doors are designed, engineered and crafted to maximize the potential of any opening, view and living space. From classic French doors to expansive scenic doors that blur boundaries between indoor and outdoor spaces, our doors offer uncompromising performance, virtually unlimited customization, and high-quality materials.

MARVIN: SIGNATURE MODERN COLLECTION

MODERN PRINCIPLES. MARVIN INNOVATION.

Introducing Modern.

Part of the Marvin Signature Collection, our Modern line considers every detail. From product to packaging to installation, we've created a line of windows and doors that's as beautiful to design and work with as it is to live with.

Discover it at marvin.com/modern.

REEB: INTERIOR DOORS

PRIMED STILE & RAIL

When homeowners are seeking a classic, painted look, popular interior door choices include molded doors and primed stile and rail doors. Molded doors, made from stamped skins, are the economical choice and are available with layouts made to imitate traditional stile and rail door designs. Primed stile and rail doors offer a level of detail and definition that cannot be matched, with crisp shadow lines and highly defined panel details, due to their authentic construction.

Durable and Architecturally Correct

Stile and rail doors are architecturally correct meaning the proportions of the door are always accurate. Stile and rail doors have a better aesthetic appeal coupled with the strength, durability, and feel of real wood.

Smooth Painting Surface

The edges of stile and rail doors are sharper and cleaner than those of a molded door. Stile and rail door edges are squared prior to assembly creating a more accurate, clean edge and smooth painting surface.

For more information about Primed Stile & Rail doors, visit reeb.com/catalogs

ANDERSEN: STORM DOORS

STORM & SCREEN DOORS

Andersen offers a full line of storm doors that add instant beauty and energy efficiency to your entranceway. Designed to deliver performance, convenience and easy installation, our storm doors offer the peace of mind you've come to expect from Andersen.

STYLE OPTIONS

WINDOWS & DOORS

FULLVIEW INTERCHANGEABLE

Let in the maximum amount of light and air while beautifully framing your entry door.

FULLVIEW RETRACTABLE

Let in an abundance of light while also benefiting from convenient anytime ventilation without having to remove a glass panel.

34 LIGHT PANEL VENTILATING

Enhance your entryway with a classic look at an exceptional value with a solid lower embossed panel.

1/2 LIGHT PANEL VENTILATING

The ½ light panel offers traditional style with a solid lower embossed panel.

Add ventilation without changing the look of the entryway.

THE ANDERSEN DIFFERENCE

We design our storm doors to make your life easier. Andersen has the styles, options and features to fit your needs.

QUALITY HARDWARE

Customize your storm door with a variety of hardware options. Select a finish and style that complements the look of your home.

RETRACTABLE

Enjoy convenient anytime ventilation with a retractable insect screen that rolls into the door frame and out of view when not in use.

SPLINELOC[®] INSECT SCREEN

Has 3X more holding strength than our standard insect screen and a minimal center mullion bar for maximum durability.

SMOOTHCONTROL PLUS[™] CLOSE SYSTEM

Our built-in dual close system is 50% stronger than standard dual closers." It has an advanced two part operation for a smoother close motion and a more consistent latch.

QUICK CHANGE

Change from insect screen to full glass panel in less than a minute with a simple flip of the handle.

REINFORCED CORNERS

Built-to-last[†] construction featuring reinforced metal corner brackets helps the door corners stay square over time for long-lasting smooth operation.

For more information, visit andersenwindows.com/stormdoors

*Visit andersenwindows.com/warranty for details. For demonstration purposes only, do not do this at home. **Consistent complete door closure when compared to standard pneumatic dual closers.
